

[illegible]

**Ascention Assets Pty Ltd** provides professional transportable building hire solutions to the mining and civil construction industry in remote and regional Western Australia. We supply and install quality accommodation and support buildings to upgrade existing locations or to create a new, modern facility.

**Experience**

Ascention is West Australian owned and operated, and has been providing services to the industry since 2007. Our dedicated team has a wealth of industry knowledge and years of hands-on, practical experience sourcing and installing quality transportable buildings. Ascention is a leading-edge supplier, with the innovation to evolve with industry initiatives and meet future demand.

**Customer focus**

Our aim is to exceed our customers’ expectations and build strong, lasting relationships with our clients. We also understand the importance of completing projects on time and on budget. We work closely with our clients to find the right solution for each individual site. Ascention can also provide specialised one-off requirements, non-standard buildings and ongoing support.

**Quality Transportable Buildings**

Ascention offers a modern, extensive and diverse fleet of transportable buildings. We can provide temporary or permanent accommodation, together with a variety of support buildings, including administration, lifestyle facilities and utilities.

**Quality**

Our buildings are constructed to the highest standard. Ascention also adopts the best possible practice to ensure that all project installations are designed to withstand extreme West Australian weather conditions.

- ✧ **First-aid facilities**
- ✧ **Offices** (standard or large complexes)
- ✧ **Lunch/crib rooms**

- ✧ **Motel lockers**
- ✧ **Airport Terminals**
- ✧ **Containerized freezer/fridge units**
- ✧ **Sea containers small & large**
- ✧ **Re-usable concrete cyclone footings**
- ✧ **Mobile crib & toilet buildings**

We have buildings in stock, serviced and ready for dispatch to your project at all times to ensure a quick turn-around.

**Project Management**

Ascention offers a complete project management service, where required. We can assist you with the design, planning approval, construction, transport and installation of your new facilities. Our experienced team can manage all aspects of the project from concept to completion.

**Hire Options**

The diagrams below show a typical selection of proven designs but as each project has different requirements then so do our designs adapt to suit.

**Transport & Logistics**

Ascention has moved a vast number of buildings in and out of remote and regional Western Australia. Our transport suppliers are experienced, cost-competitive and reliable. We provide flat-top, drop-deck, hiab and tilt-tray transport to meet site-specific requirements.

**Location**

Ascention Assets Administrative Head Office is located in Perth and provides services to clients projects in the South and Mid-West regions. We also have a convenient location in the Pilbara servicing clients projects in the North West region.

**Statutory Requirements**

Our buildings are designed to comply with the Australian Standards, the Building Code of Australia (including Full Cyclonic requirements), energy efficiency, local government and disability access regulations.

If required, we can assist with document preparation for Planning and Building Licence Applications.

As a West Australian company, Ascention is familiar with all local statutory obligations and understands the processes required to meet current building and environmental codes. Contact Ascention for a professional solution to your temporary, semi-permanent or permanent transportable building requirements.
